

Greetings Distribution Partners and Installers:

When installing a multi-zone system, the size of the line set connections on the **INDOOR** unit determine which size line set to use. The standard sizes of the refrigerant connection ports on the outdoor unit are 1/4" x 3/8". Many installations require larger ports, therefore TOSOT has included piping adapters with most outdoor units. The sizes and quantities of adapters per unit is listed in the table below:

<i>Capacity Size (BTUH)</i>	<i>Quantity of Adapters Provided</i>	<i>Tube Size (Inch)</i>
<i>18,000</i>	<i>0</i>	<i>None</i>
<i>24,000</i>	<i>2</i>	<i>3/8 to 1/2</i>
<i>30,000</i>	<i>2</i>	<i>3/8 to 5/8</i>
	<i>4</i>	<i>3/8 to 1/2</i>
	<i>2</i>	<i>1/4 to 3/8</i>
<i>36,000</i>	<i>2</i>	<i>3/8 to 5/8</i>
	<i>4</i>	<i>3/8 to 1/2</i>
	<i>2</i>	<i>1/4 to 3/8</i>
<i>42,000</i>	<i>3</i>	<i>3/8 to 5/8</i>
	<i>4</i>	<i>3/8 to 1/2</i>
	<i>2</i>	<i>1/4 to 3/8</i>

As always, if you have any additional questions, please ask your local TOSOT representative or our factory support team.

Best Regards,

The TOSOT America Support Group
